

Academic Program Review Changes and New Submission Rotation Schedule

Continuous Improvement Reports (CIRs) and Continuous Improvement Plans (CIPs) will be submitted by Academic Programs and reviewed by the Academic Assessment committee on a two-year rotating basis. This rotation will result in dividing academic programs across each college into two clusters, Group A and Group B. The rotation will start in September 2025, with Group A programs having their complete 2024-25 CIR & 2025-26 CIP reviewed. On September 1, 2026, Group A programs will submit a modified version (see below), however, Group A's modified 2025-26 report will not be reviewed by the committee. Conversely, Group B will submit a modified version of their 2024-25 report on September 1, 2025. Group B's modified 2024-25 reports will not be reviewed by the committee. In September 2026, Group B will submit their completed 2025-26 CIRs and 2026-27 CIPs, which will be reviewed by the committee.

During the "alternate/non-review year," each academic program will submit a modified version of their Continuous Improvement Report that contains the following:

- *Mission Statement (if no changes were suggested/made, this section would be automatically uploaded from the program's previously reviewed CIR)*
- *Program Outcomes (if no changes were suggested/made, this section would be automatically uploaded from program's previously reviewed CIR)*
- *Student Learning Outcomes (if no changes were suggested/made, this section would be automatically uploaded from program's previously reviewed CIR)*
- *Activities implemented that year (if no changes were suggested/made, this section would be automatically uploaded from the program's previously reviewed CIR, from the Continuous Improvement Action Plan section)*
- *Assessment Methods (including targets) (if no changes were suggested/made, this section would be automatically uploaded from program's previously reviewed CIR)*
- *Data related to their Assessment Results (**manually entered/updated each year**)*

NB: On the "alternate/non-review year" these programs will not update their Discussion of Assessment Results and Continuous Improvement Action Plans. Additionally, these programs will not need to submit a Continuous Improvement Plan.
