AGENCY’S DISCUSSION AND ANALYSIS

Winthrop University offers quality and access while promoting individual achievement and the greater good, recognizing that higher education serves three primary, interrelated purposes:

- To fuel the economic engines of South Carolina and of the nation through workforce development and entrepreneurship;

Risk Assessment and Mitigation Strategies

A failure of Winthrop University to accomplish its mission and goals could **negatively impact the student educational experience and potentially weaken the pool of qualified candidates who support the workforce of the State of South Carolina.** Given that 88% of Winthrop undergraduates are from South Carolina and

| | | | |
|---------------------|----------------------------|-----------------|------------|

| AGENCY CODE: | H470 | SECTION: | 021 |

approximately 41% of Winthrop undergraduates are eligible for federal Pell grants, a diminished educational experience would negatively impact South Carolina’s historically underserved populations. These are the very citizens the State of South Carolina identifies as needing the most support to advance their education in order to compete for employment opportunities that provide a living wage.

The University employs mitigating strategies focused on enhancing operational efficiency, managing costs, sustaining effectiveness, emphasizing forward-thinking, and remaining current with education trends. These strategies are supported by the following efforts:

- The development and implementation of the [Winthrop Plan](#), which serves as a blueprint for the university through 2025, outlines the five goals and initiatives that Winthrop will achieve to **drive enrollment, retention, student success, diversity and fundraising** in order to become a **national model for a student-centered university experience**.
- Winthrop University remains compliant with standards of its institutional accrediting body, the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). In December 2022, [SACSCOC reaffirmed the University’s accreditation](#), with no request for additional reporting. Accreditation by SACSCOC signifies that the institution has a mission appropriate to higher education; has resources, programs, and services sufficient to accomplish and sustain its mission; maintains clearly specified educational objectives that are consistent with its mission and appropriate to the degrees offered; and assesses its achievement of stated objectives. The institution will submit its Fifth Year Interim Report and Impact Report of the Quality Enhancement Plan on Student Learning in 2028.
- Winthrop University retains [program-specific accreditation](#) with 22 accrediting bodies, thus ensuring the quality of its educational programs. The institution has traditionally sought and received national accreditation for degree programs that maintain programmatic accreditation standards.

Supportive actions by the State that could help to mitigate a negative impact on the student educational experience include:

- Restore the proportion of state appropriations to Winthrop University to pre-2008 recession levels. This action would enable Winthrop to minimize fiscal impact upon students relative to tuition, fees, room, and board, thereby supporting Winthrop’s goals to increase access, degree attainment, and inclusive excellence in learning experiences for all students.
- Fully fund salary increases for state employees. Cost of living increases that are mandated by the General Assembly but not fully funded create significant challenges in balancing the institution’s budget. The increased budgetary strain on the University has the potential to impact the quality of the student educational experience.
- Reduce institutional labor costs by eliminating reporting obligations that involve redundancy across state agencies.
