Add LibGuide Resources to a Course Using the Manual Tool

Overview

This tutorial will show you how to add the manual version of **LibGuides Resources to a Course**. The manual version will display library resources that the instructor selects from the LibGuides.

Quick Steps

Content Area > Build Content > Link Name > Permit Users to View this Content > Submit > Embed Content > View Content

Step 1

In your Blackboard course, navigate to a Content Area, hover over *Build Content* on the Action Bar, and select "Dacus Library Resources (Manual)" [1].
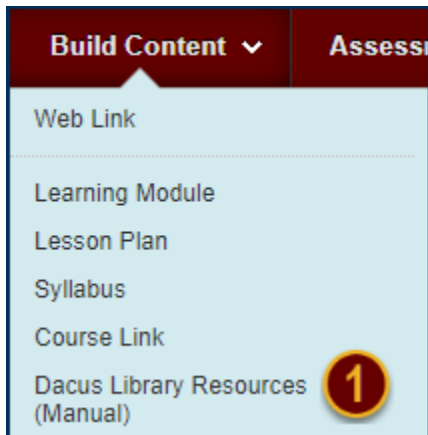

Step 2

Enter a "Name" for the library guide [2].

You can also choose to make the link available to users by checking the "Permit Users to View this Content" radio button [3].
